### No-Shank Fingertip Toothbrush

[Description](#)   [Options](#)   [Reviews](#)

A patented one-size-fits-all fingertip toothbrush. Weighing just 11/3 grams, it is designed for a push-on fit. Push it on firmly and the compression holds it on the fingertip. Use the same finger you floss with. It is a one-piece design, molded from FDA approved polymer. Effective for everyday use, it is the ultimate safety toothbrush. An excellent choice for high security areas and suicide watches. Millions have been sold since 1995 and no weapons have been formed. No other toothbrush manufacturer can make that claim. Individually wrapped. **Made in USA.**
